

Department of Conservation & Recreation

CONSERVING VIRGINIA'S NATURAL AND RECREATIONAL RESOURCES

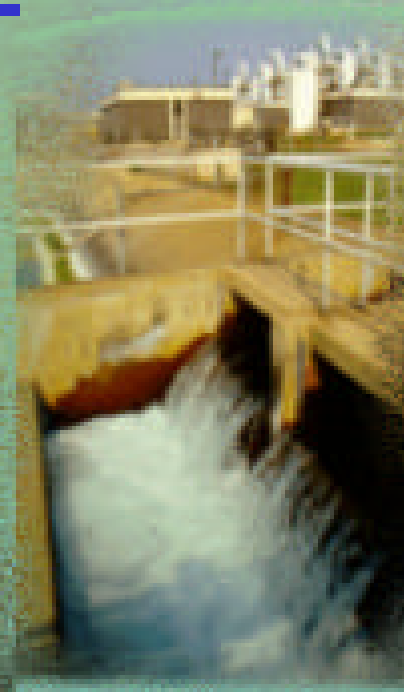

Steps after EPA Approval

- Develop implementation plans
- Implement BMPs
- Continue stream monitoring
- Perform bacteria source tracking
- Review water quality standards

TMDL Implementation

- **DEQ is required by state legislation to develop implementation plans**
- **DCR has lead for NPS component of TMDL implementation plans**
- **DEQ, DCR, VDH, and other state agencies will coordinate IP development with local stakeholders**

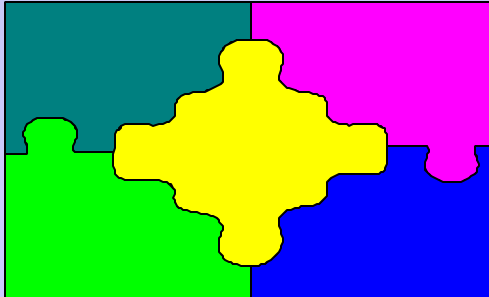

Staged TMDL Implementation

- **TMDLs include staged reduction targets**
 - **first stage addresses reasonable measures**
 - **final stage results in attainment of WQ standards**
 - **may require change in WQS**
 - **uncertainty associated with implementation of final allocation**

Implementation Plan Development

- **Implementation plan development will be done locally**
- **Stakeholders within the watershed will have the opportunity to participate in plan development**

Potential Funding Source\$

- Potential funding sources for best management practices selected during implementation plan development:
 - **USDA Programs - CREP/EQIP/PL566**
 - **WQIA projects**
 - **Section 319 Funds**
 - **State Revolving Loan Funds**
 - **Cost-Share Program**
 - **Tax Credits**
